

Additional information to **4CA029**

Under “Threats at the site”, the possible building of a dam, that might influence the water levels at the site, should be added. This dam might also cause siltation problems (information taken from the 1993 RIS).

Criteria: 1a, 1c, 2c, 3a, 3b, 3c

Justification of criterion 3c:

At peak times the site hosts far over 10% of the population of *Calidris pusilla*. It also regularly hosts up to 10% of the *Calidris minutilla* population.

The site falls under IUCN category IV.
