

# Warwick Pond

Warwick, Bermuda

**Site Number:** GB986

**Coordinates:** 32°16'6"N, 64°48'13"W

**Site Area:** 4.351 hectares

### Site Description:

Bermuda's largest freshwater pond with mudflats at the north end and a broad fringing marsh. Important for the only freshwater adapted population of endemic killifish. The most important mudflat for passage of transient shorebirds on Bermuda. The pond is also important for resident and migratory waterfowl, e.g. herons, egrets, ducks and rails.
